参考表达扩展库

从一道题出发，
把表达练到可以迁移。

12 类功能 • 96 条表达 • 10 个话题词块

这两本资料，分工不同。

训练手册：看题、独立回答、检查思路、重新表达。
表达扩展库：卡住时按 F 编号找帮助，再回到原题。

配套重编版 / 适用于已能用简单句表达观点的学习者

本资料为独立练习材料，不声称属于官方题库，也不承诺分数。
片段与框架均为可选支架，观点、理由和例子由你自己完成。

进入目录 →

两本书，组成一次完整练习

先自己回答，再寻找帮助；不要一边看框架一边照读。

01

只看题目，先说一次

先尝试约 30–45 秒，找到自己的观点。时长只是练习目标，不是考试规定。

02

检查你卡在哪里

是没有理由、解释不清、缺少例子，还是不知道如何比较？先判断功能。

03

带着问题查表达库

题卡上的 F01–F12 对应表达功能。一次选 1–2 个，填进自己的内容。

04

回到原题，重新说一遍

合上资料再说；保留清楚、自然的表达，不追求把所有推荐句式都用上。

05

换一个条件，再说一次

更换人群、场景或立场，检验你能否迁移，而非只会复现刚才的段落。

编号怎么读

Q01–Q50 = 题卡；T01–T10 = 话题；F01–F12 = 表达功能；C01–C06 = 组合框架。

把两份 PDF 放在同一文件夹。跨文件跳转取决于阅读器支持；如无法跳转，按编号检索即可。

表达库导航

与训练手册共用 Q / T 编号；每次按功能找 1–2 个即可。

Q05

Some people think that technology has made it unnecessary to learn languages. What do you think?

A 先说一个简单回答

I don't think so. Translation apps are useful, but learning a language still helps people communicate.

B 加入少量支架，把意思讲清楚

I don't think translation technology makes language learning unnecessary. It is useful for short, practical tasks, such as checking a menu or asking for directions. That said, understanding the words is only part of a conversation. If someone wants to build a friendship or work closely with colleagues, they also need to follow jokes, notice tone and respond without constantly checking a screen. A translation app may help at first, but it can interrupt that flow. So I would treat it as a useful backup rather than a complete replacement for learning a language.

C 为什么这样展开

先承认翻译工具的价值，再用建立友谊这一情境说明边界。新增的是具体场景与判断依据；只借用对比和条件两个功能，不必把立场、原因、小结都写成固定套句。

Q24

How can we solve the traffic jam problem?

A 先说一个简单回答

Governments could improve public transport. More people might use buses instead of driving.

B 加入少量支架，把意思讲清楚

I would start by making buses more reliable, rather than simply asking everyone to drive less. On a busy route, a dedicated bus lane allows buses to avoid the same queue as cars. This means commuters can judge how long their journey will take, which may make the bus a more realistic choice. For example, I would be more willing to leave my car at home if I knew a bus would arrive regularly and get me to work on time. Of course, the route also needs to serve the places where people actually live and work.

C 为什么这样展开

把“改善公交”的笼统建议展开成公交专用道→时间更稳定→更愿意乘车的机制。没有声称建了车道就一定解决拥堵，还补上线路覆盖这一现实条件。

Q49

What are the advantages and disadvantages of shopping online?

A 先说一个简单回答

Shopping online is convenient, but it can be difficult to judge product quality.

B 加入少量支架，把意思讲清楚

Shopping online makes it easier to compare prices without travelling from shop to shop. That is particularly useful for people who live far from large shopping centres. However, a low price does not tell you whether something will fit or feel comfortable. With shoes, for instance, photographs cannot replace trying them on, and returning an unsuitable pair takes time. I think the balance depends partly on the product. I would happily order a book online, because I know what I am getting, but I might visit a shop before buying an expensive chair that I would use every day.

C 为什么这样展开

从便利与质量两个抽象标签，扩展到比价、鞋子退货、书与椅子的差异。两面都有解释，结论按商品类型变化，不强迫说利大于弊。

容易用错的接法

只记住几个关键区别，就能减少“套进去却不通顺”的情况。

lead to + 名词 / 动名词

This can lead to higher costs. / This can lead to people spending more.

结果或情况；to 在这里是介词。

lead someone to + 动词原形

This can lead people to spend more.

描述某个因素使人采取某种行动。

主语 + not only... but also...

It not only saves time but also reduces stress.

两边保持相同结构。若把 Not only 放在句首，常涉及倒装，不作为入门默认写法。

..., which means that...

More services are online, which means that people can save time.

承接前一句。若独立开始一个句子，可以说 That means...

Compared with + 比较对象

Compared with city residents, people in rural areas may have fewer transport options.

比较对象保持一致；不要把人直接与城市作比较。

because + 完整分句 / because of + 名词

because it is expensive / because of the high cost

because 和 because of 的接法不同。

It depends on + 名词 / whether 从句

It depends on the cost. / It depends on whether people can afford it.

把条件说具体，避免只说 It depends 就结束。
